ARTURO M.
OTTOLENGHI
& TRUFFLE

HELLO!

You now have the opportunity to buy quality **SUPERGRIT**® abrasives at the best prices.

Red Hill Corporation is celebrating its **32nd anniversary** in 2010. We are blessed with over 50,000 customers. What is our formula of success?

- 1) **VALUE** We ship the best combination of quality and price.
- 2) **LARGE SELECTION** We stock standard and hard-to-get products, sizes and grits not easily found elsewhere.
- 3) **PROMPT SHIPMENT** Our enormous inventory permits immediate shipment from stock.
- 4) **PERSONALIZED SERVICE** Our caring personnel and relatively small size will meet your specific needs.

Why are our prices so low? **SUPERGRIT**® Abrasives negotiates large volume discounts with leading abrasive manufacturers from the USA and over 15 countries. We supplement our line with **1st quality closeouts** which we resell at below market prices. Think of us as your worldwide purchasing department. When you buy **SUPERGRIT**® Abrasives, you know you are getting the best value.

Come visit our showroom in historic Gettysburg, PA and spend a day on the Civil War's most famous battlefield. We are located 2 1/2 miles north of Lincoln Square on Route 34. You will find everything in this catalog and more.

Call our dedicated professionals today at **800-822-4003**, fax us at **717-337-0732**, or email us at redhill@supergrit.com and start saving.

Arturo M. Ottolenghi ~ President

PS: Don't forget to check out our new user-friendly and expanded web site for special limited time closeouts at: www.supergrit.com. We offer secure e-commerce ordering.

SPECIAL ORDERS: Contact us with your product specifications with sizes and grits. We may have the item in stock or we can usually make it.

PURCHASE ORDERS & OPEN ACCOUNTS: Our larger, regular customers establish an account with us by sending 3 trade references and a bank reference. In addition, we have over 1,000 Schools and Government institutions that have net 30-day payment terms.

Grinding Discs & Flap Discs	15–16	SEE OUR CLOSE-OUT SHEETS! PGS. 41–42	

OPEN COAT VS. CLOSED COAT

Open coat refers to the distribution of abrasive grains on the surface of sandpaper. Open coat means more space between grain particles (about 50-70% coverage). This tends to reduce clogging especially on wood. Closed coat is a much denser distribution of grain and is more appropriate for metal or glass. Today, most woodworking abrasives are Semi Open (about 87% coverage) which offers the best combination of low loading and extended life and performance.

ABRASIVE GRIT SIZE COMPARISONS

There are three measurement systems for the size of abrasive grit: US CAMI (Coated Abrasives Manufacturers Institute) or ANSI, European (FEPA Federation of European Producers Association), and Micron grading. CAMI tolerates the most deviation of grit size for a specified grit. FEPA has tighter tolerances. Micron is even tighter. Up to 240 Grit, CAMI & FEPA grading is similar. As grits go finer, FEPA grit numbers go up faster than CAMI. Example: FEPA 600P = CAMI 360, FEPA 1200P = CAMI 600. 20 MICRON corresponds to about 400 grit CAMI or 800P FEPA. The trend is to adopt the European FEPA grading system even in the USA. See chart on following page.

FACTS

INTERESTING FACTS ABOUT SANDPAPER

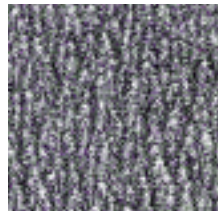

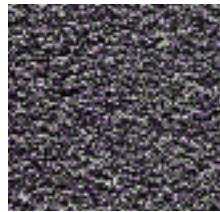

ALUMINUM OXIDE

Usually brown. Very tough, Block shaped grit which fragments under heat and pressure. This friability is desirable, because it exposes new sharp cutting edges. It is the best all-purpose wood working abrasive.

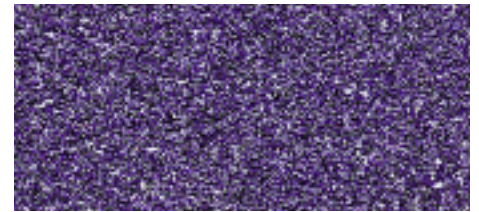

SILICON CARBIDE

Shiny black or grayish/white when treated with zinc stearate (like soap) which reduces clogging. Harder, sharper, and more friable than A.O. It fragments quickly thus reducing the potential for loading and exposing new sharp edges. Commonly used on hard materials like glass or metal. Knife makers use fine S.C. belts for sharpening. Auto body shops use fine, black, waterproof S.C. sheets for wet sanding between coats. Wood workers use white, no-load sheets for fine finishing.

ALUMINA ZIRCONIA

Usually blue, sometimes green or red. It is a combination of Zirconia and A.O. Zirconia is two steps removed from the hardness of Diamond. It requires extreme pressure to fracture the grain; therefore, it is combined with A.O. to increase fragmentation. It maintains a sharp cutting edge and is expensive. Ideal for hogging off wood rapidly or for thickness planing. Knife makers, the shoe industry, metal workers all appreciate A.Z. for its longevity on hard materials.

CERAMICS

Usually pink (Norton® "SG™") or gray (Carborundum® "Medalist™"). It is even harder and more durable than Alumina Zirconia and more expensive. Favored by metal workers.

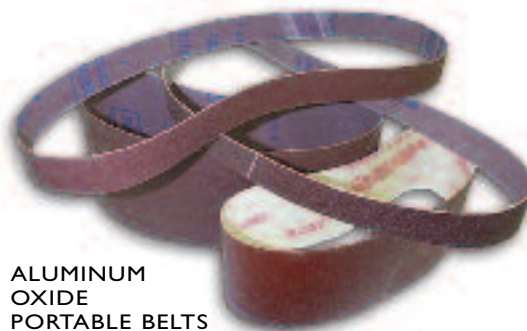

GARNET

Orange, natural mineral mined mostly in the USA. The abrasive of choice for wood before A.O. became more popular. Block shaped like A.O. but softer. Fragments and dulls faster than AO. Well suited for final sanding of wood, because its softer cut produces the smoothest finish of all abrasives. Garnet tends to close off the wood pores, which makes stains penetrate more evenly.

WOODWORKING BELTS

SUPERGRIT® WOOD WORKING SANDING BELTS

Tough Aluminum Oxide bonded to heavy duty "X" weight cloth backing. Finest Phenolic resin over resin bond. Open coat resists clogging. Superb top skived overlap jointing or taped butt joints both with no bump. We also have Blue Alumina Zirconia and Ceramic belts for wood planing (See under metal working belts.) **Prices are based on boxes of 10 belts per size and grit. Stroke sander belts 6" x 80" and larger are priced 5 belts per size and grit. Individual belts may be purchased at box price + 10%. Sale items are listed in red.**

METAL WORKING BELTS

SUPERGRIT® METAL WORKING BELTS

Alumina Zirconia is two steps removed from the hardness of diamond. This premium material is extremely durable on metal, fiberglass, and hard woods. It is ideal for planing rough sawn lumber or roughing out shapes. We also have **ceramic belts in most grits and sizes at a 10% premium over the zirconia prices listed below.** Customers say they get about 25% more wear with ceramic over zirconia. Our belts have heavy cloth backing and taped butt joints. Metal workers can also use **Aluminum Oxide** belts listed under wood working belts for satisfactory results at a lower price. For fine finishing of metal we offer black, waterproof **Silicon Carbide, Structured Abrasive, Cluster/Compact Grain, and Cork** belts on the next page. Prices shown are per belt in zirconia. We have 180 & 220 Grit Ceramic Belts in: 1" X 30", 1" X 42", 2" X 42", 2" X 48", 2" X 72" & 6" X 48" **Sale belts listed in red.**

METAL WORKING BELTS

BLACK - WATERPROOF - SILICON CARBIDE BELTS

S.C. Belts are harder and sharper than aluminum oxide belts and available in finer grits than zirconia. S.C. belts are ideal for fine sanding and polishing glass, metal (knife sharpening), stone, etc. Available in grits: 60/80/100/120/150/180/220/240/320/400/600/800. **Priced in boxes of 10 belts. You may combine grits to make up packs of ten. Sale belts are listed in red. We also offer 3M 262 and 3M 272 Imperial Polyester Backed Micron Belts which are waterproof and excellent on steel. See grits printed in green.**

COMPACT GRAIN & CORK POLISHING BELTS

Compact Grain/Cluster metal working belts can last three to four times longer than AO belts. They leave a satin, brushed look. Knife makers and sharpeners love them. Due to the chunks of grain, their appearance is much rougher than their stated grit. It is advisable to break in each belt for 30 seconds with a scrap piece of metal. Thereafter the grit remains consistent. Grit 120 is made from 3M "multi-cut" 369F. Other grits are Norton, VSM or Schoeder. Available in grits: **120/180/220/320/400/600/800**. Sold individually. Please specify size and grits. Polishing belts are made from natural cork without grit. When the grit on these durable belts is consumed, many of our customers add polishing compounds such as jeweler's rouge for extended use. Polishing discs available below.

SMALL AIR FILE & EXPANSION WHEEL BELTS

These small belts are used on pneumatic and electric sanders often for metal deburring. We have a huge stock of these belts in aluminum oxide, ceramic and zirconia at about half their regular price. Many grits are available. Please ask about other sizes not listed and specify desired grits. Add 10% to Zirc prices for price of ceramic belts.

PRESSURE SENSITIVE ADHESIVE & E6000 TUBE & 3M 78# GENERAL PURPOSE SPRAY ADHESIVE

Convert less expensive plain backed discs, sheets, rolls to sticky back with our economical and effective adhesive in a spray can. The PSA adhesive remains tacky and will not dry, so one application to your back-up pad or template is good for many discs. 3M 78 Insulation is a fast-drying, high bond adhesive, resistant up to 140°F and suitable for many surfaces. It can be used on foam insulation. Compare at \$10.99/can. **Ask about case lot pricing.** E6000 provides a permanent bond to many surfaces.

ITEM NO.	DESCRIPTION	SIZE	PRICE EACH	PRICE 2 OR MORE

5" PSA PAPER DISCS

PRESSURE SENSITIVE ADHESIVE PAPER DISCS FOR RANDOM ORBIT SANDERS

The combination of rotational and orbital motions of your disc sander virtually eliminates burning, scratching, and swirl marks. We offer a wide variety of PSA discs suitable for sanding different materials.

ULTIMATE BLUE ZIRCONIA ALUMINA will outlast all other discs especially on hard materials such as hard wood, metal, fiberglass, gel coat, etc. Very sharp, fast cutting and durable.

PREMIUM RED RESIN ALUMINUM OXIDE on heavy weight paper backing is great on hard woods and metal. Heavy backing resists tearing.

MIRKA® GOLD A.O. RESIN on "C" or "D" weight paper. Best performance/value for auto body and wood working.

INDASA RHYNO WHITE A.O. RESIN, on "C" and "D" weight paper backing. Premium grain, non loading, suitable for today's new water-based finishes. Best performance/value for auto body and wood working.

SUPERGRIT DISCS CLOSE-OUT — We purchase close-outs from prime USA and foreign manufacturers. These high quality discs are resold to you at below market pricing. Buy Supergrit products and enjoy the savings.

VACUUM PSA DISCS — We sell 5" discs with 5 or 8 holes, 6" and 8" discs with 6 or 8 inner or outer hole patterns. Prices are the same as the solid discs shown below. 5" PSA Discs with 8 Vacuum Holes available in Gold only in Grits 80 to 320. 5 Vacuum hole discs available in most above grades.

PLAIN BACKED DISCS — We sell 5", 6" and 8" discs without adhesive in Grits 36 – 400 at 1/2 the price of PSA discs. (Mostly 3M)

HOOK & LOOP DISCS

SUPERGRIT® HOOK & LOOP DISCS FOR RANDOM ORBIT SANDERS

We now carry solid and vacuum discs to fit the hole configurations of most sanders on the market. Hook & Loop discs are easy to apply and allow changing back and forth between grits unlike PSA discs which may lose tack from dust. They have become the most popular products we sell. If you have a PSA pad and wish to convert to Hook & Loop we sell a conversion disc on page 39. If your back-up pad's hook surface starts to wear out and your discs don't attach, you can buy an inexpensive new hook surface without buying a new pad. **To save about 40% on discs, you can convert your H&L sander to PSA (see page 39).**

We stock five grades of Hook & Loop discs as follows:

ULTIMATE BLUE ALUMINA ZIRCONIA – These discs will outlast all others types especially on hard materials such as hard wood, metal, fiberglass, gel coats, etc.

PREMIUM RED A.O. RESIN on heavy weight paper backing are great for hard materials which normally tear or wear out other discs.

MIRKA® GOLD A.O. RESIN on "C" or "D" weight paper backing offer the best performance/value on the market. Auto body and wood working customers have made these Gold discs our biggest selling products.

INDASA RHYNO WHITE A.O. RESIN, on "C" and "D" weight paper backing. Premium grain, non loading, suitable for today's new water-based finishes. Best performance/value for auto body and wood working.

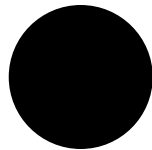

SUPERGRIT® SALE PRODUCTS — premium discs such as White Resin Smirdex from Greece, Norton Gold or "Champagne," White A.O. Resin Kovax from Japan, SIA from Switzerland, Klingspor from Germany, Carbo "Premier" from Canada, Sungold from USA, Wuhan-Konner from China — all sold at close-out prices.

Prices are listed in packs of 50. Assorted packs are available (grits 60–320 or customized).

Please specify type of disc, size, hole configuration, and grit.

6" ABRANET™ SOFT MESH DISCS

Abranet™ Soft Mesh Discs are made from a patented abrasive screen surface laminated to a thin open cell foam H&L backing. They can be used with both 5" and 6" vacuum sanders and resist clogging. Abranet Soft discs are used in automotive applications on primers, laquers and top coats — both wet or dry. They are also used for polishing composites and metal. Scissor sharpeners love this product. **Also available in 3" diameter. \$15.00/10**

ABRALON® & SUPER PADS FOAM BACKED DISCS

ABRALON® POLISHING FOAM DISCS

ABRALON® Micro Fine H&L Polishing Foam Hook & Loop Discs are made from silicon carbide mesh laminated to 1/4" thick foam. Open cell foam is suitable for dust extraction. They are used wet or dry to achieve a mirror polish on automotive finishes or solid surface (CORIAN® type) countertops. It is the industry standard for polishing bowling balls. **6" diameter** attaches to 5" or 6" hook & loop sanders. For a satin finish, stop at 1000 grit. For a mirror shine, continue with 2000 and 4000 grits. You may combine grits for quantity discounts. Also see ABRANET™ discs on page 13.

JOEST FOAM / HOOK & LOOP BACKED "SUPER PADS"

New product from Germany — "SUPER PADS" are available in Aluminum Oxide (great for sanding wood bowls on a lathe), Silicon Carbide (solid surface, bowling balls, auto), and Diamond (stone, metal). Silicone Carbide & Diamond pads can be used wet or dry. All "Super Pads" have an open cell foam suitable for dust extraction. The SC discs are similar to Mirka "Abralon" but have a thinner 1/8" foam backing and are priced lower. We stock 3" and 6" diameters. Other grits and sizes (4", 5", 8", 9", 11") available on request. You can mix grits to meet total quantity.

ROLOC® & GRINDING DISCS

MECHANICAL LOCKING DISCS

These discs have plastic inserts attached to the back which screw into their respective holders. They are meant for very high RPMs which would normally cause a PSA or Hook & Loop disc to detach. There are three main attachment systems: **A: ROLOC®** initially introduced by 3M® has a male screw attached to each disc. The ROLOC® holder is female. **B: METAL BUTTON** has a female button attached to each disc. The metal button holder is male. **C: POWER-LOCK®** introduced by Merit® has six plastic sides which snap into a female holder of same design. We stock all three types of discs and holders. The discs are either **cloth backed abrasive** or **non-woven fiber** similar to surface conditioning discs. **Please specify type of disc, size, and grit. Take 10% off orders of 100 discs or more.** Specify Brown A.O. or Blue Zirconia. **Take another 10% off on all Metal Button Discs.**

RESIN FIBER GRINDING DISCS

These tough Aluminum Oxide and Zirconia discs are widely used by auto body and metal working shops to grind welds, to remove paint and rust, and for rapid stock removal of surfaces like wood. Abrasive grain is bonded to a semi rigid backing with heat resistant phenolic resin. We carry the following sizes: **4" X 5/8", 4 1/2" X 7/8", 5" X 7/8", 7" X 7/8", 9 1/8" X 7/8"**. Grits are available in: **16, 24, 36, 50, 60, 80, 100, 120**. Sold in quantities of 5 discs or boxes of 25. (See more specials on page 43.) **We have 5" & 7" discs which have the Norton "Speedloc" metal button attachment at close-out prices. See page 42.**

BACK-UP PADS

Eventually, pads wear out. This is particularly true of the nylon hook surface on Hook & Loop pads. In this case you can replace the hook surface with our economical conversion discs (Item CD 5 \$3.75 see page 39) instead of buying a new pad. There are many different types so if you don't see your pad listed please call us. **Please specify hole configuration for vacuum system pads.** The following are some of our most popular replacement pads:

FOAM HAND PADS

Try our ergonomically designed hand pads which accept 5" and 6" discs and have molded recesses for 3 fingers. We have 5" and 6" round soft foam hand pads with an elastic strap for sanding contoured shapes. We also have semi rigid yellow foam 5" and 6" hand pads with molded handles for flat surface sanding. Prices are for PSA. **Please add \$1.00 each for H & L surface.** Our yellow (medium grit) and black (fine grit) H&L hand sanding kits are essential in every wood shop.

FOAM BUFFING PADS & SOFT EXTENSION PADS

You can polish your car or any smooth finished surface with these foam, Hook & Loop buffing pads. The 5" diameter 1" thick convoluted, gray, waffle foam slightly reduces heat and friction. The 8" diam. auto polishing H&L pads are color coded for crs, med or fine. Our **soft foam extension pads** in solid or with vacuum holes attach to your present pad and add about 3/4" of soft foam to better follow the contours of curved shapes (PSA or H&L versions). Our Black & Decker 8" Black foam bonnet ties over any smaller foam or wool pad and is great for applying wax or liquid polishes.

POLISHING PADS & COMPOUNDS

WOOL & TERRY CLOTH POLISHING PADS & BONNETS

Due to a huge close-out we are able to offer these first quality terry, wool pads, and bonnets (Arnold®, Black & Decker®, 3M®, Waxmaster®, Wen®, etc.) at a big discount. Cotton terry is excellent for applying liquid polishes and waxes. Wool yarn pads are used for final buffing to a high gloss. Lambs wool (actual fur on leather) is the top of the line for polishing delicate finishes like Clear Coats. **Try our special auto polishing kit, which allows you to polish your car with your electric drill at a bargain price. 6 Piece Kit includes 5 1/2" wool compound pad mounted on 1/4" shank, 1 each 8" foam & 8" wool bonnets, 2 terry bonnets, 1 Quart Mirka® mirror polish. A \$40.00 value for Sale \$17.00.** (Photo inside back cover.)

POLISHING COMPOUNDS

BODY MAGIC™ & MIRKA® LIQUID POLISHING COMPOUNDS

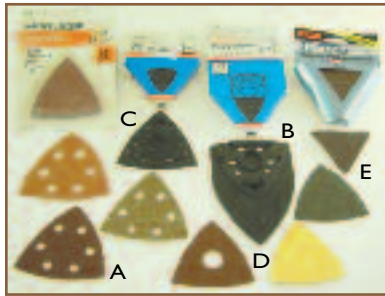

Whether you are removing swirl marks from an automotive surface or polishing a fine lacquered wooden surface, the BODY MAGIC™ line will provide great results at a great price. They contain no silicones which may be harmful to some paint systems. Due to a huge purchase we are offering quarts of **Mirka® Mirror Gloss Finishing Polish (2000 grit) at half price.** This is the last compound you use on a car to remove swirl marks and oxidation before applying wax. Products listed from coarsest to finest.

RHYNOWET REDLINE — Aluminum Oxide Waterproof

"These won't stain like some black sheets!" **NEW!** This premium, new generation, **waterproof, aluminum oxide** 9" X 11" paper has the following advantages: an alternative to black SC sheets with a finer scratch pattern than conventional black SC, low loading, high cutting power, long life on both wet or dry applications, modified flexible synthetic resins on waterproof anti-slip latex paper. Excellent for both automotive and woodworking. Made in Portugal by Indasa.

SANDSCREEN, 1/4, 1/3 & 1/2 PAPER SHEETS

SAND SCREEN SHEETS & ROLLS

This durable abrasive product is made of Black, Waterproof, Silicon Carbide bonded to a flexible polyester screen. The open mesh resists clogging and is therefore ideal for sanding plaster, drywall, and wooden floors. After use, Sandscreen can be washed and reused again and again. We stock sheets, rolls, and discs (see section on floor refinishing page 36).

1/4", 1/3" & 1/2" PAPER SHEETS

HOOK & LOOP, PSA & PLAIN SHEETS (QUARTER, THIRD & HALF PAPER SHEETS)

We stock a full range of cut sheets in **Aluminum Oxide**, and **Silicone Carbide** to fit 1/4 sheet (4 1/2" X 5 1/2") palm sanders with holding clips, or PSA or H&L. We also have 1/3 sheets (3 2/3" X 9") to fit jitterbug sanders, and 1/2 sheets (4 1/2" X 11" or 5 1/2" x 9"). **Cut your own shapes from our H & L sheets and save. Example: Get up to 2 "mouse" patterns from one 1/2 sheet. Your cost is about 20¢ each instead of \$1.00 retail.**

MICRON DISCS & AUTOBODY FILE SHEETS

MICRON DISCS

These Micron graded discs with polyester film backing are made to the highest tolerances for applications where uniformity of grit size is all important. Use them for wet or dry sanding. **The following are approximate grit comparisons between Micron and European "P" grading: 9 Micron = 2000 grit / 15 Micron = 1200 grit / 30 Micron = 500 grit / 40 Micron = 360 grit / 60 Micron = 240 grit / 80 Micron = 180 grit / 100 Micron = 150 grit.**

A.O. CLOTH SHOP ROLLS FOR HAND & DRUM SANDING

Narrow 1", 1 1/2", and 2" flexible "J" weight cloth rolls are great for back and forth sanding of round objects like furniture legs. Use 4 1/2" wide rolls on your 1/4 or 1/2 sheet oscillating palm sander. "J" weight cloth with its phenolic resin bond aluminum oxide surface will greatly outlast paper and won't tear. Heavy duty "X" weight cloth rolls in 2", 3", 4", and 6" widths are well suited for drum sanders (although "J" wt works also). For planing rough lumber and fast stock removal, try our Zirconia rolls.

Wood turners love our 1" flexible full resin A.O. rolls in grits 280 and 400.

**HEAVY DUTY
PNEUMATIC DRUMS
MADE IN U.S.A.**

9" WIDE FLEXIBLE PUMP SANDER SLEEVES AND USA PNEUMATIC CONTOUR DRUMS

Our flexible sleeves are made from resin bonded **aluminum oxide on "J" weight cloth backing**. They will flex along with the air inflated rubber drum to follow the contours of what you are sanding. **Before ordering, please verify the circumference (length) of the sleeve by cutting open an old sleeve and measuring the length. Available in grits 40/60/80/100/120/150/220.** Other grits and widths (such as 6" or 8") can be ordered or may be in stock. Our drums are heavy duty, premium USA quality. We also have good, but lighter weight drum assemblies from Taiwan at lower prices.

FLAP WHEELS

SAND-O-FLEX™ CONTOUR SANDING FLAP WHEEL

Eight abrasive cloth flaps backed by eight brushes gently rotate against your contoured surface eliminating time consuming hand sanding. Thousands of flexible sanding fingers follow irregular surfaces. Turn of a knob feeds out new abrasive strips as needed. 1" X 87" strips rolled inside the plastic wheel are enough for hours of sanding. Lightweight plastic unit attaches to hand held drill or rotary tool. 1" wide abrasive cloth refills come in **solid or scored (1/8" cuts)**. Grits available: **60,80,100,120,150,180, 240, 320**. Please specify solid or slashed and grits.

FLAP WHEELS MOUNTED TO 1/4" SHANKS OR UNMOUNTED WITH 1" ARBOR

These resin bond, Aluminum Oxide cloth backed flap wheels are excellent for removing paint and rust or sanding irregular shaped surfaces. ABRASOTEX™ wheels are interleaved flaps of nylon non-woven and cloth sandpaper, which is great for deburring. Up to 3" Diameter, they are mounted on a 1/4" shank to attach to your rotary tool. 6", 8" and 10" diameter unmounted wheels have 1" diameter arbors. We sell flanges to reduce the arbor to 3/4", 5/8" or 1/2" for \$2.50/set. **Grits available C-M-F-VF-EXF.**

CONTOUR FLAP WHEELS

If you have contoured surfaces to finish, these wheels can save you hours of sanding. Hundreds of flexible cloth fingers are bonded to a center core. The 1/4" wide sanding strips follow the shape of the part. They debur and polish without removing stock or altering the shape. Mount the Contour Flap Wheel to your bench motor at speeds up to 2,500 RPM. The 1" arbor can be reduced to 3/4", 5/8", or 1/2" with flange reducers. (\$2.50/set). (See photo inside back cover.)

POLISHING WHEELS & CARTRIDGE ROLLS

FIBER POLISHING / DEBURRING WHEELS

3M® calls them Scotchbrite® unitized wheels, Norton® calls them Beartex® deburring wheels, Carborundum®, Anderlex®, etc. all have proprietary names for this excellent nylon fiber bonded product which is used to hone chisels, polish, and deburr metal, etc. They come in different grits from medium to very fine, in different densities, and in various sizes for use with hand held rotary tools and on bench motors. We have mandrels and flanges to complement most configurations. **Give us your specifications on polishing wheels. We have more sizes than shown. Sizes shown = Diameter x Width x Arbor.**

CARTRIDGE ROLLS

Our cartridge rolls are made from resin bond, Aluminum Oxide on cloth backing. They are available either as regular cylinders or as tapers. They have arbor holes into which you insert a screw-on mandrel. We sell mandrels to fit any size cartridge roll. Grits available: extra coarse, coarse, medium, fine, very fine. Please specify both type, size, and grits. Other sizes and grits are available. **Save 10% on boxes of 100 in one size and grit.**

Mandrels available at \$3.25 each. Please state shank and pilot diameters. Example: 1/4" shank to 1/8" pilot, 2" overall length.

Sanding Sponges

FLEXIBLE FOAM HAND SANDING PADS & DISCS

For final sanding of contoured surfaces by hand, nothing beats these foam pads. Urethane foam is resin coated with a flexible A.O. or S.C. skin. Home wood workers, professionals, and large furniture manufacturers all use this product extensively. We offer 1" thick pads coated on four sides. 1" Combo Pads have 1 curved edge and 1 angled edge. Flexible 1/2" thick pads coated on two sides, extra flexible 3/16" thick (High Flex) pads, and 1/8" thick (Nicsand) sheets both coated on one side. **Save an additional 10% off the 24 piece price when you buy 100 pads. You may combine grits to achieve quantity pricing.**

TACK CLOTHS, MASKS & COTTON WIPERS

COTTON TACK CLOTHS AND WIPERS

Our tack cloths are specially treated white cotton cheese cloth used to remove the last particles of dust and fiber from your work piece before you apply a finish. They are 18" X 36" = 648 sq. in., 20 X 12 mesh cotton, folded to 4 1/2" X 4 1/2" and individually packed in poly bags. They are pliable and have a medium tack.

Wipers are new knitted cotton such as you find in an undershirt. They are absorbent, clean, reusable, strong, and washable. No.1# Wipers average 18" X 18". Due to the weight/value ratio of wipers, we charge actual freight cost on 25 lb and 50 lb wiper shipments.

DISPOSABLE DUST MASKS AND RESPIRATORS

We offer 3 types of dust masks which filter out wood dust, and 2 respirators which filter out both dust, paint, and vapors. **The less expensive mask (160#) has one rubber band, the premium mask (160#-PREM) has two bands and a foam gasket around the edges. The ultimate dust masks have 2 bands, foam gasket and an exhaling valve.** They all have a flexible metal nose strip that adjusts to the contours of your face. Both the Gerson® 8000 and the 3M Half Mask Respirators are NIOSH approved for organic vapors such as paint fumes. The Gerson which is disposable after many hours of use has replacement pre-filters (\$2.75/set of 2). The 3M has replacement cartridges which twist on.

STEEL & BRONZE WOOL

We sell the best quality steel wool in 16 pad loafs or 1 or 5 pound rolls in all grades from 4# coarsest to 0000 finest. Additionally, bronze wool is available where corrosion is a problem such as in the marine industry. German RAKSO® steel wool sheets are stitched into a backing which clips onto your power sanders and eliminates hand rubbing. **Try Nicsand steel wool 5" H&L 8 Hole discs and 1/4 PSA sheets for fine finishing with your orbital sanders.**

BUFFING PRODUCTS & COMPOUNDS

COTTON BUFFING WHEELS

Metal workers, foundries, knife makers, gunsmiths, and wood carvers (honing chisels) use these products for finishing. **Buffing wheels, made from 40 plies of cotton sheets, are sewn together** in three degrees of stiffness: **SPIRAL SEWN-HARD**—1/4" tightly sewn is a good general-purpose wheel for coarse buffing. **CUSHION SEWN-MEDIUM**—sewn with concentric circles about 1/2" apart is good for cutting and coloring action. **LOOSE SEWN-SOFT**—sewn with only about 2 concentric circles. Extra soft for final coloring. This is the safest wheel to use with rouge on precious metals. Buffing wheels are about 1/2" thick and can be gang mounted side by side to achieve say 1" or 2" face widths. They have 1/2" arbors which can be mounted on a bench motor, drill press, or on our 1/4", 1/2", or 5/8" wheel adapter mandrels (\$6.50 each), available with left or right turn threading. *2" & 3" Cotton Buffs pictured on inside back cover

FLOOR REFINISHING PRODUCTS

FLOOR REFINISHING PRODUCTS

After 30 years of wall to wall carpeting mania, hard wood floors are back in fashion. Homeowners and professionals are refinishing wood floors. Go to your rental center for the sanders, but buy your sandpaper from us at a big savings. When we sell **full 50 yard rolls we charge actual UPS freight** due to their weight/value ratio. Floor maintenance pads are nylon non-woven discs, which are color coded for each grit: **BLACK**—COARSE for heavy scrubbing, **GREEN**—MEDIUM for wet scrubbing, **RED**—FINE for buffing, **BLUE**—VERY FINE, and **WHITE**—ULTRA FINE for dry polishing. We list only the most popular shapes and sizes, but have others in stock. Please ask for a quote on any size or product. We just got in beautiful German heavy Blue Zirconia paper 7" x 5/16" and 7/8" Edger Discs Grits 24 to 150 (no 80). Get 30% more wear for 10% extra cost over Black SC. **Also Grit 24 ZIRC 16" \$3.75 ea, 17" \$4.25 ea.**

GRAPHITE, TAPES, HOOK-DISCS & ROLLS

GRAPHITE COATED CANVAS

Reduce friction, improve belt sander performance by attaching (with disc adhesive) a strip of graphite to the backing plate of your sander. Especially useful for reducing heat on large stroke sanders. Sold by the foot in rolls.

ITEM NO.	WIDTH	PRICE PER FOOT	PRICE 25 FT ROLL
GRF-3	3"	\$2.25	\$45.00
GRF-4	4"	\$3.00	\$60.00
GRF-6	6"	\$4.25	\$90.00
GRF-8	8" heavy duty	\$5.75	\$120.00

GRAPHITE ROLLS

AUTOMOTIVE MASKING TAPE, CARTON SEALING & REINFORCED STRAPPING TAPE

About 15 years ago TESA of Germany bought out Tuck Tape in North Carolina and made a good product even better. **The masking tape we sell is designed for painting aircraft and autos.** Do not confuse this with cheaper general purpose masking tape. Both the **4317 (GOOD)** and **4316 (BEST and most flexible)** resist paint seepage, bleed through, and adhesive residue even when paint is baked at up to 250°F for 45 minutes. Our **317 glass filament reinforced strapping tape has an incredible 110 lbs.** tensile strength in 2" width. All tapes are on 3" diameter cores to fit standard tape guns.

ITEM NO.	SIZE	DESCRIPTION	PRICE/ROLL	PRICE/SLEEVE	PRICE/CASE

PSA TO HOOK CONVERSION DISCS AND ROLLS HOOK TO PSA

Hook & Loop sanding products have now become as popular as pressure sensitive adhesive products. They are about 30% more expensive but compensate with ease of switching from one grit to another, and the smoother finish due to the slight cushioning effect of the Hook & Loop. Eventually the heat of friction from sanding weakens the nylon hooks. Discs start detaching. Instead of buying an expensive new pad, just glue on a new hook surface. If you have a PSA file board sander or a drum sander which holds cloth strips with clips, you can convert to Hook & Loop with our 4" wide PSA/Hook conversion rolls.

GLUE GUNS & GLUE STICKS

HOT MELT GLUE GUNS & GLUE STICKS

We started our business 32 years ago selling glue sticks. Today we sell glue sticks made to our specs under our SUPERTACK label. We sell state of the art glue guns by Adhesive Technologies in New England. They have high tech **PTC (Positive Temperature Control)** which automatically drops the wattage to a low stand-by 25 watts when plugged in, but not in use. When you squeeze the trigger, the wattage jumps to 40 or 200 depending on the model. This feature prolongs the life of your gun. The **HD200** is a full industrial gun with 200 watts power, and 4 1/2 lbs./hr extrusion rate (Compare these specs to guns costing \$150.) The **PRO-100** is the best glue gun value on the market with 60 watts and 2 lbs./hr extrusion. The **FPC HIGH/LOW TEMP CORDLESS** with power charging base can be used with or without the cord (about 5–10 minutes between charges) and has High/Low Temp settings. The **LOW TEMP MAGIC MELT™** uses oval, low temp glitter or white clear sticks. The Dual Temp Mini Trigger Gun uses 1/4" mini sticks. All the above guns are **very reliable and come with a one-year manufacturer's warranty.**

We offer five basic grades of glue sticks in 1/2" diameter X 4" or 10" lengths, oval 1/4" X 4" mini, 5/8" X 2", 1" X 3" and 1" square chips. Samples available at \$6.00/lb.

WHITE CLEAR PREMIUM — extra strong, good on plastics and porous substrates

WHITE CLEAR CRAFT — most transparent, strong, good for crafts

AMBER CLEAR — high strength, dries clear with yellowish cast, good for demanding applications such as sea shells to ceramic, packaging, floral wreaths, taxidermy, etc. Also 1" square chips for pan melting.

SUPER AMBER — extra high strength, dries opaque honey color, strongest glue we have ever tested, good for wood projects, kitchen cabinet assembly, etc.

WHITE METAL / PLASTIC — dries clear, excellent bonding to metal or plastic — which are difficult substrates.

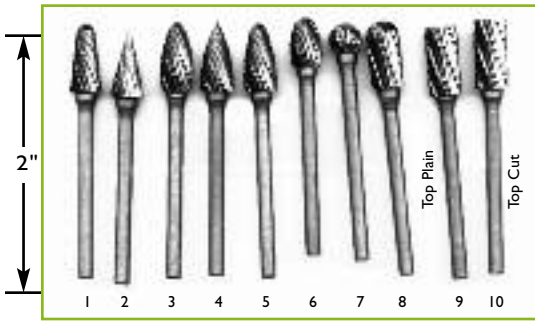

We also stock specialty glue sticks such as colorful glitter sticks, white clear mini sticks and oval, low temperature sticks, 5/8" X 2" and 1" X 3" industrial sticks. **Our oval low temp sticks which are used with our "Magic Melt™" gun melt at 225°F instead of 380°F standard for hot melt.** They burn your fingers less and will not melt certain substrates like urethane foam or latex balloons.

We also offer three types of **interchangeable nozzles: Standard** cone shape, 1 1/2" long **Hypodermic** (for detail work), and 1/4" **Spreader** (for a flat bead). **Price is \$4.75 each. When we ship full case quantities, we charge actual UPS/FedEx freight.**
